

THE M SERIES M5i STRIDER

WITH THE SUCCESS OF THE KEISER M3i INDOOR CYCLE AND THE CREATION OF NEW PROGRAMMING FOR ELLIPTICAL TRAINERS, DEMAND SOON DEVELOPED FOR A UNIQUE PIECE OF KEISER CARDIOVASCULAR EQUIPMENT

Our solution: the Keiser M5i Strider, an elliptical machine designed to offer an effective group training option, while still offering the same unique benefits that made the M3i a success.

Because the M5i Strider is easy to use, small and portable, it is designed for group elliptical training, one of the newest and hottest trends in the industry today. Group elliptical classes are becoming increasingly popular in Europe and with our new M5i Striding program we make this fun and effective fitness movement available to all.
